PROFESSIONAL SUMMARY

Business analyst and project operations professional skilled in requirements gathering, business requirements documents (BRDs), gap analysis, process mapping, and stakeholder reporting for cross-functional AI product teams. Completed project management (PM) co-op at Aosenuma.ai: ran the portfolio cadence for 5 live projects, automated portfolio reporting, and raised User Interface/User Experience (UI/UX) compliance from 85% to 92%. Available full-time from December 2026.

EDUCATION

Master of Science, Project Management / *Northeastern University, Boston, MA* **Dec 2026**

- **Relevant Coursework:** Foundations of Project Management, Foundations of Project Business Analysis, Product Requirements Design and Ownership, Project Finance, Strategy Thinking, Stakeholder Management

Bachelor of Science, Information Technology / *MSG-SGKM College, Mumbai University, India* **Jul 2019 - Apr 2022**

- **Relevant Coursework:** Database Management Systems, UI/UX Design, Computer Networks, Communication Skills

EXPERIENCE

AI Project Manager (Co-op) / *Aosenuma.ai, Boston, MA* **Jan 2026 - Jun 2026**

- Raised live-product **UI/UX compliance** from an 85% baseline to 92% and reached ~80% guideline adoption by defining UI/UX requirements and a 168-point checklist for **UI/UX governance**.
- Standardized UI/UX via scorecard-based **compliance audits** and **gap analysis**, with an executive summary for leadership.
- Reduced stale log entries ~30% during stewardship weeks via a daily **compliance report** on a 150-entry tracking log.
- Surfaced **delivery risks** (scope drift, priority conflicts) before delivery through the weekly **portfolio cadence** for 5 live projects.
- Protected sprint commitments by tracking **capacity** and roll-offs across 18+ contributors and rebalancing at-risk work.

Project Coordinator / *Powerica Limited, Pune, India* **Oct 2022 - Jul 2024**

- Cut scope conflicts 18% and stabilized delivery across industrial projects with **stakeholder coordination** checkpoints.
- Reduced idle workforce time 12% and lifted plant throughput by re-engineering **vendor workflows** to remove handoffs.
- Delivered milestones within budget and timeline across concurrent projects by coordinating **cross-functional teams** of 10+ engineers and vendors using Microsoft Project (MS Project) and Primavera.

SKILLS

Methodologies: Agile, Scrum, Waterfall, Software Development Life Cycle (SDLC), Change Control, Sprint Planning, RACI Matrix, Key Performance Indicators (KPIs), Objectives and Key Results (OKRs)

Core Competencies: Business Analysis, Requirements Gathering, Business Requirements Documents (BRDs), Stakeholder Management, Risk Management, Scope Management, Project Scheduling, Gap Analysis, Process Mapping, User Stories & Acceptance Criteria, User Acceptance Testing (UAT), Process Improvement, Dashboard Development, Data Analysis

Tools/Platforms: Microsoft Excel, Power BI, SQL, Microsoft Project, Primavera, Visio, SharePoint, Notion, Figma, GitHub, Mermaid (Gantt roadmaps), Microsoft PowerPoint, Claude Design, Stitch, Cursor, NotebookLM

Certifications: Business Analysis Foundations, Scrum Fundamentals, Microsoft Excel Specialist

PROJECTS

Capstone Project / *Ardelyx IT Transformation Case, Northeastern University* **Sep 2026 - Dec 2026**

- Developed a **value-realization framework** for an IT-transformation capstone, translating 10 case situations into benefit hypotheses, clear owners, and six-month post-implementation reviews.
- Built a lightweight **benefits-management model** linking project intake, RACI ownership, and portfolio feedback to improve IT investment decisions without new tools.

UI/UX Guidelines & Design System (design.md) / *Aosenuma.ai co-op project* **Jan 2026 - Jun 2026**

- Built a **tokenized design system** of reusable color, type, and spacing standards, with 7 UI-only (front-end) prototypes for consistency testing and Large Language Model (LLM) context, and canonical tokens synced across Notion, GitHub, and code as a single source of truth.

Portfolio Report Agent (Actuals vs Forecast Automation) / *Aosenuma.ai co-op project* **Jan 2026 - Jun 2026**

- Configured a **Notion custom agent** (weekly Monday 8:00 AM trigger, read access to canonical Projects/Tasks databases) so reference reports define format only while live metrics pull from source databases, enforcing traceability and cutting weekly reporting prep from ~2.5 hours to ~20 minutes of PM review (~87% less).

LEADERSHIP & ATHLETICS

Sprinter, Track & Field / *Northeastern Club Running (NUCR), Boston, MA* **Sep 2024 - Present**

- Competed in sprint events for the NUCR, balancing 12+ weekly training hours with a full graduate course load.
- Competed in national-level sprinting meets in India prior to Northeastern.
