

Redacted sample. Structural export of the production Notion database *Prototype UI Quality Review Checklist*. Workspace name, product names, prototype URLs, assignees, and internal links removed. Methodology and checklist structure preserved.

Prototype UI Quality Review Checklist

Source: Notion database (redacted) · **Version:** 2.1 · **Total items:** 168 · **Scope:** UI-only consistency prototypes & live product audits · **Linked standard:** UI/UX Guidelines (design.md)

Database views: All items · By category · Failed only · Prototype P-03 (sample audit) — *production Notion workspace redacted*

168 checklist items

7 categories

7 UI-only prototypes

5 live products audited

168-point governance checklist

Category Summary

Category	Items	Description
1 · Color & tokens	24	Semantic palette, no orphan hex, gradient rules, contrast pairs
2 · Typography	18	Type scale, hierarchy, line height, weight usage
3 · Spacing & layout	22	8pt grid, radius baseline, touch targets, responsive breakpoints
4 · Components & patterns	38	Button variants, forms, modals, tables, navigation, states
5 · Accessibility (WCAG 2.1 AA)	32	Keyboard, focus, ARIA, contrast, screen reader, motion
6 · Motion & interaction states	14	Loading, empty, error, success, reduced-motion
7 · Documentation & governance	20	Component registry links, Figma mapping, exception logging
Total	168	Used for prototype validation and live product compliance scorecards

Database Properties (redacted)

Property	Type	Purpose
Item #	Number	Checklist ID (1–168)
Category	Select	One of 7 audit categories
Checklist item	Title	Pass/fail criterion
Standard ref	Text	Link to design.md / Standards chapter
Status	Select	Pass · Fail · N/A · Not reviewed
Prototype	Select	P-01 ... P-07 (UI-only) or Live product A–E
Notes	Text	Gap description, remediation owner

Original maintained in Notion during co-op · Not published · This sample shows representative rows only

Sample Rows — 1 · Color & tokens (24 items)

#	Checklist item	Standard ref	Status	Prototype
1	Primary actions use semantic primary token — no orphan hex	design.md · Tokens first	Pass	P-03
2	Destructive actions use destructive token only	Standards · Components	Pass	P-03
5	Approved primary gradient only — no decorative one-offs	design.md · Gradient	Pass	P-01
8	Text on white meets WCAG AA 4.5:1 minimum	ACCESSIBILITY · Contrast	Pass	Live C
12	Secondary button hover uses surface-wash token	Standards · Tokens	Fail	Live C
18	Disabled fill/text tokens used for disabled states only	design.md · Semantic palette	Pass	P-05

18 additional color & token items not shown

Sample Rows — 2 · Typography (18 items)

#	Checklist item	Standard ref	Status	Prototype
25	Heading hierarchy h1→h6 — no skipped levels	ACCESSIBILITY · Headings	Pass	P-02
29	Body text uses documented type scale	Standards · Brand & tokens	Pass	P-04
33	Link text distinguishable without color alone	WCAG 1.4.1	Pass	Live A
38	Label uppercase only where specified in style card	Style Card · Typography	Review	P-06

14 additional typography items not shown

Sample Rows — 3 · Spacing & layout (22 items)

#	Checklist item	Standard ref	Status	Prototype
43	Layout follows 8pt grid; spacing scale 4/8/16/24/32/48/64	design.md · Layout	Pass	P-03
47	Border radius baseline 12px unless component spec overrides	design.md · Layout	Pass	P-01
52	Touch targets ≥ 44×44 px on interactive elements	ACCESSIBILITY · Mobile	Pass	P-07
58	Card padding consistent with component spec on settings view	Standards · Components	Fail	Live C

18 additional spacing & layout items not shown

Sample Rows — 4 · Components & patterns (38 items)

#	Checklist item	Standard ref	Status	Prototype
65	Buttons use documented variants (primary/secondary/ghost/destructive)	Governance · Shipping	Pass	P-02
71	Modal close control meets size and focus requirements	Standards · Components	Fail	Live C
78	Form fields have visible labels — not placeholder-only	ACCESSIBILITY · Forms	Pass	P-04
82	Error messages include field name and issue description	WCAG 3.3.1	Pass	P-05
89	Loading, empty, error, and success states on meaningful surfaces	design.md · States	Review	Live B
95	Navigation uses documented pattern — no one-off menu styling	Standards · Components	Pass	P-06

32 additional component items not shown

Sample Rows — 5 · Accessibility (32 items)

#	Checklist item	Standard ref	Status	Prototype
103	All functionality operable via keyboard — no keyboard trap	WCAG 2.1.1	Pass	P-03
110	Focus indicator visible — outline ≥ 3:1 contrast	WCAG 2.4.7	Fail	Live C
118	Icon-only buttons have aria-label	ACCESSIBILITY · ARIA	Pass	P-01
125	Decorative images use alt="" and aria-hidden	ACCESSIBILITY · Images	Pass	P-07
131	prefers-reduced-motion respected for animations	ACCESSIBILITY · Motion	Pass	P-02

27 additional accessibility items not shown

Sample Rows — 6 · Motion & states (14 items)

#	Checklist item	Standard ref	Status	Prototype
135	Loading skeleton timing matches component spec	Standards · States	Review	Live D
138	Empty state includes guidance action — not blank panel	design.md · States	Pass	P-04
142	Focus visible on all interactive elements in modal flows	Checklist #142 · a11y	Fail	Live C
146	Success confirmation announced via role="status"	WCAG 4.1.3	Pass	P-05

10 additional motion & state items not shown

Sample Rows — 7 · Documentation & governance (20 items)

#	Checklist item	Standard ref	Status	Prototype
149	Screen linked in component registry (Notion map)	Governance · SSOT	Fail	Live C
155	Exceptions logged in deviations log when deviating from standard	Exceptions log · §7	N/A	P-03
161	Figma frame linked on work item or N/A documented	Governance · Shipping	Pass	P-06
165	LLM-ready UI spec export available for prototype context	design.md · Agent projection	Pass	P-01...P-07
168	Compliance scorecard filed for leadership review cadence	Audit process	Pass	Live portfolio

15 additional documentation items not shown

How this checklist is used

- **7 UI-only prototypes** — each prototype audited against all 168 items for consistency testing and LLM context (not live launches).
- **5 live products** — compliance scorecards roll up checklist results; portfolio-wide compliance improved 85% → 92%.
- **Failed items** — logged with remediation owner; re-audit on next sprint cycle.

Redacted structural sample for portfolio use · Based on production Notion database *Prototype UI Quality Review Checklist* · Aosenuma.ai co-op context anonymized · 48 of 168 representative rows shown
