PROFESSIONAL SUMMARY

Project manager and business analyst supporting cross-functional AI product teams through requirements gathering (BRDs), stakeholder reporting, workflow design, gap analysis, and compliance audits. As an AI Project Manager co-op at Aosenuma.ai, drove UI/UX governance, portfolio reporting automation, and PM cadence across 5 active live projects. National-level sprinter recognized for discipline, resilience, and high-performance execution.

EDUCATION

Northeastern University

Boston, MA

Master of Science, Project Management

Dec 2026

- **Relevant Coursework:** Foundations of Project Management, Foundations of Project Business Analysis, Product Requirements Design and Ownership, Project Finance, Stakeholder Management

MSG-SGKM College, Mumbai University

Mumbai, India

Bachelor of Science, Information Technology

Jul 2019 - Apr 2022

- **Relevant Coursework:** Database Management Systems, UI/UX Design

EXPERIENCE

AI Project Manager (Co-op)

Jan 2026 - Jun 2026

Aosenuma.ai

Boston, MA

- Ran weekly PM touchpoints and portfolio cadence for 5 active live projects (7 at co-op start; 2 halted for resource crunch), surfacing scope drift and priority conflicts before they hit delivery.
- Automated portfolio actuals-vs-forecast reporting via a Notion custom agent with weekly triggers and source-database rules, reducing manual reporting prep from ~2.5 hours to ~20 minutes of PM review per week.
- Drove UI/UX governance using a 168-point quality checklist and a tokenized design system (requirements, 7 UI-only prototypes, Notion/GitHub token sync), producing ~80% guideline adoption and improving live-product compliance from 85% to 92%.
- Published the Steward Daily Compliance Report across a 150-entry RAD log, resulting in ~30% fewer stale entries during stewardship weeks.
- Tracked capacity and roll-offs across 18+ contributors, rebalancing work when assignments threatened active sprint commitments.

Project Coordinator

Oct 2022 - Jul 2024

Powerica Limited

Pune, India

- Drove stakeholder alignment by structuring coordination checkpoints, cutting scope conflicts 18% and stabilizing delivery outcomes across concurrent industrial projects.
- Re-engineered vendor workflows to remove redundant handoffs, reducing idle workforce time 12% and strengthening operational throughput across plant sites.
- Coordinated cross-functional teams of 10+ engineers and vendors using MS Project and Primavera, delivering milestone-driven outcomes within budget and timeline constraints.

TECHNICAL SKILLS

Methodologies: Waterfall, SDLC, Agile, Scrum, Change Control, Sprint Planning, RACI, OKRs, KPIs

Core Competencies: Business Analysis, Requirements Gathering (BRDs), Stakeholder Management, Stakeholder Reporting, Process Improvement, Strategic Planning, Gap Analysis, Root Cause Analysis, Process Mapping, Workflow Design, User Stories & Acceptance Criteria, UAT, Dashboard Development, Data Analysis

Tools/Platforms: MS Excel, MS Office, MS Project, MS PowerPoint, Primavera, Visio, SharePoint, Jira, Confluence, Notion, Figma, GitHub, SQL (reporting & data pulls), Power BI, Claude Design, Stitch, Cursor, NotebookLM

Certifications: Business Analysis Foundations, Scrum Fundamentals, Microsoft Excel Specialist

PROJECTS

UI/UX Guidelines & Design System (design.md) | *Notion, GitHub, CSS/Tokens*

Jan 2026 - Jun 2026

- Defined requirements for a tokenized design system (UI/UX Guidelines), built 7 UI-only prototypes for consistency testing and LLM context, and synced canonical tokens across Notion, GitHub, and code as a single source of truth.
- Ran compliance audits with scorecards and an executive summary for leadership, using structured gap analyses to standardize UI/UX consistency across live products.

Portfolio Report Agent (Actuals vs Forecast Automation) | *Notion Agents, Mermaid*

Jan 2026 - Jun 2026

- Configured a Notion custom agent (weekly Monday 8:00 AM trigger, read access to canonical Projects/Tasks DBs) with strict rules so reference reports define format only while live metrics pull from source databases, enforcing traceability and replacing manual weekly compilation with a review-only workflow.

VOLUNTEER EXPERIENCE & LEADERSHIP

Northeastern Club Running (NUCR) – Sprinter, Track & Field

Sep 2024 - Present

Northeastern University Athletics

Boston, MA

- Competed in sprint events for the NUCR, balancing 10+ weekly training hours with a full graduate course load.
- Represented India in national-level sprinting meets prior to Northeastern, sustaining elite-level competitive discipline.
