PROFESSIONAL SUMMARY

Business analyst and project operations professional supporting cross-functional AI product teams through requirements gathering (BRDs), stakeholder reporting, workflow design, gap analysis, and compliance audits. Co-op at Aosenuma.ai driving UI/UX governance, portfolio reporting automation, and PM cadence across 5 active live projects (7 at co-op start; 2 halted for resource crunch). National-level sprinter and Northeastern athlete recognized for discipline, resilience, and high-performance execution in demanding environments.

EDUCATION

Master of Science, Project Management

Northeastern University

Dec 2026

Boston, MA

- Relevant Coursework: Foundations of Project Management, Foundations of Project Business Analysis, Product Requirements Design and Ownership, Quant. and Qual. Methods for Bus. Analysis

Bachelor of Science, Information Technology

MSG-SGKM College of Science, Arts, and Commerce, Mumbai University

July 2019 – Apr 2022

Mumbai, IND

EXPERIENCE

AI Project Manager (Co-op)

Aosenuma.ai

Jan 2026 – Jun 2026

- **Published** the Steward Daily Compliance Report across a **150-entry RAD log**, resulting in **~30% fewer stale entries** during stewardship weeks.
- **Drove** UI/UX governance using a **168-point quality checklist**, producing **~80% guideline adoption across live products (with 7 UI-only consistency prototypes for design-system validation)**.
- **Ran weekly PM touchpoints and portfolio cadence for 5 active live projects (7 at co-op start; 2 halted for resource crunch)**—surfacing scope drift and priority conflicts before they hit delivery.
- **Tracked capacity and roll-offs across 18+ contributors**—rebalancing work when assignments threatened active sprint commitments.

TECHNICAL SKILLS

Core Competencies: Business Analysis, Requirements Gathering (BRDs), Stakeholder Management, Stakeholder Reporting, Process Improvement, Strategic Planning, Gap Analysis, Root Cause Analysis, Process Mapping, Workflow Design, User Stories & Acceptance Criteria, UAT, Dashboard Development, Data Analysis, Change Control, Agile, Sprint Planning, SDLC, RACI

Tools/Platforms: MS Excel, MS Office, MS Project, MS PowerPoint, Primavera, Jira, Confluence, Notion, Figma, GitHub, SQL (reporting & data pulls), Power BI, Claude Design, Stitch, Cursor, NotebookLM

PROJECTS

UI/UX Guidelines & Design System (design.md)

Notion, GitHub, CSS/Tokens (aosenuma.tokens.json)

Jan 2026 – Jun 2026

- Defined requirements for a tokenized design system (UI/UX Guidelines), built 7 UI-only prototypes for consistency testing and LLM context, synced tokens across Notion, GitHub, and code, and ran compliance audits with scorecards for leadership.
- Drove compliance from 85% to 92% via gap analyses; established a single source of truth adopted across live products (with 7 UI-only consistency prototypes for design-system validation). Audited live products (with 7 UI-only consistency prototypes for design-system validation) with individual scorecards and an executive summary for leadership review.

Portfolio Report Agent (Actuals vs Forecast Automation)

Notion Custom Agents, Projects Database, Mermaid (Gantt Roadmaps)

Jan 2026 – Jun 2026

- Configured a Notion custom agent with a weekly Monday 8:00 AM trigger, read access to canonical Projects and Tasks databases, and strict rules: reference reports define format only; live metrics always come from source databases.
- Reduced manual reporting prep from ~2.5 hours to ~20 minutes of PM review per week; every metric traces to Projects DB or Open Tasks.

LEADERSHIP & ATHLETICS

Northeastern Club Running (NUCR) - Sprinter, Track & Field

Northeastern University Athletics

Sept 2024 - Current

Boston, MA

- Compete for Northeastern University at regional, city, and state-level track and field competitions, demonstrating discipline, teamwork, and high-performance execution.

- Support university and community sporting events at Northeastern Athletics Facilities, assisting with event logistics and operations.
