

Redacted sample. As-is → to-be process map for weekly portfolio reporting. Client names anonymized.

Portfolio Reporting Workflow

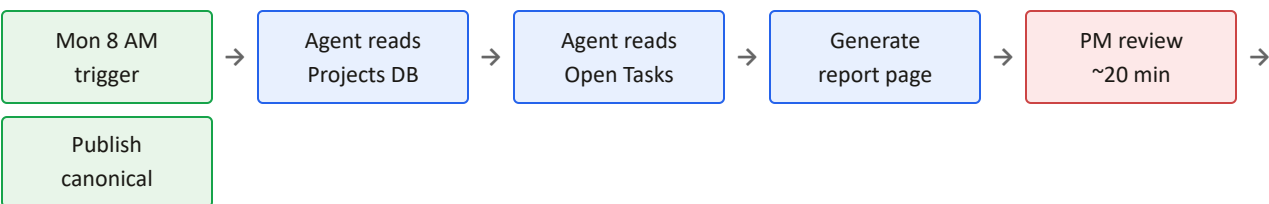

Process: Actuals vs Forecast · **Author:** [Redacted] · **Version:** 1.0 · **Date:** Mar 2026

As-Is (Before Automation)

Time: ~2.5 hours/week · **Pain:** conflicting numbers between decks and source DBs · **Scope:** 5 active projects (7 at start; 2 halted)

To-Be (After Automation)

RACI — Weekly Reporting

Activity	PM	Agent	Leadership
Schedule / trigger	I	R	—
Data pull from canonical DBs	—	R	—
Validate variance flags	R/A	C	I
Meeting-note enrichment	R	—	—
Publish weekly report	R	—	I
Act on portfolio risks	C	—	A

Data Sources

Source	Used for	Rules
Projects DB	Status, dates, phase, owner	Canonical; always live
Open Tasks DB	Task counts by status	Canonical; always live
Prior reports	Layout / Gantt style only	Never used for metrics
Meeting notes	PM alignment enrichment	Optional; query-window matched
