

Requirements Traceability Matrix

Initiative: UI/UX Guidelines & Design System · Version: 1.1 · Date: Apr 2026

Traceability — Functional Requirements

Req ID	Requirement (summary)	Design / Deliverable	Test / Evidence	Status
FR-01	Machine-readable token file synced to GitHub & Notion	design.md + aosenuma.tokens.json · GitHub repo	Token diff review; sync audit log	Met
FR-02	168-point compliance checklist	Checklist v2.1 in Notion	5 live products audited; scorecards filed	Met
FR-03	Per-product scorecard with gap notes	Scorecard template + 5 completed audits	Executive summary rollup Mar–May 2026	Met
FR-04	7 UI-only consistency prototypes	Prototype set (UI validation only)	Prototype audit pass/fail log	Met
FR-05	Leadership executive summary	Monthly compliance rollup deck	Leadership review sign-off	Met
FR-06	LLM-ready structured UI specs	Token + component spec export	LLM prompt regression samples	Partial

Traceability — Success Metrics

Metric	Target	Actual	Evidence
Design compliance	92%	92%	Gap analysis cycle 2 scorecards
Guideline adoption	~80%	~80%	Checklist adoption survey (PM leads)
Products with scorecards	5 live	5 live	Audit log (active products only)

Gap Log (sample)

Gap ID	Description	Remediation	Owner
G-12	Secondary button hover state inconsistent on Product C	Token override in design.md §4.2	Eng lead
G-18	Focus ring missing on modal close in Product A	a11y checklist item 142 flagged	PM / BA
